CARD OF THANKS
Mrs. Everett F. Bicknell and daughter de-
sire to express their sincere appreciation of
the many signs and expressions of kind
thoughtfulness at a time when the sympathy
of friends meant so much.
January 12, 1920, Norway, Me.

CARD OF THANKS
We find that words utterly fail us when we
try to express our appreciation to the many
friends and neighbors, the community, Sunday
school, and Grange for their acts of kindness
and cheer sent in during the illness and loss
of our dear Marion. We want to thank the
high school, the teachers, and her class, the
Sunday School and friends and relatives for
the beautiful flowers, and Rev. M. O. Batten
for his comforting words.

NORWAY AND VICINITY

There will be a meeting of the W.
Henry Stone Post American Legion at 7 o'
clock. A temporary organization will be
made and several important matters dis-
cussed. The charter is expected this
week. Any person who was in the ser-
vice from this district should attend the
meeting and investigate the workings of
this important organization.
Promoter W. Frank Slatts has matched
Harry Katron of Portland against La-
vigne, a middle weight, who comes here
recommended by Jim Poulson of
Manchester, N. H. The match will be
staged at Norway Opera House, Jan. 20
for a purse of \$100, winner take all.
Other news has been given before the
show. Johnnie Aspinall is expected here
in season to appear that evening against
some strong local man. Regarding the
main show, it is needless to laud the
fighting qualities of Soldier Katron. He
demonstrates his ability to pass along
the goods in a satisfactory manner and
has many backers in town. This will be
some classy show.
The seniors at the high school have the
parts assigned for their annual play and
rehearsals are in order. The "Herses
Hunter" is a three act comedy drama
built for laughing purposes and will be
handled by a good sized cast. The story
is woven around certain artists or paint-
ers struggling to win fame in a big city
and their troubles develop into a comedy
of errors which comes through all right
with a satisfactory climax.
Mrs. Inez M. Cummings is recovering
from an operation performed at the Eye
and Ear Infirmary January 7. Her con-
dition is reported favorable.
Edward E. Libby is recovering from
boils and carbuncles which have kept him
away from the shoe factory during the
past six weeks. The cords and muscles in
the neck, shoulder and left arm were
badly affected during the long siege. He
expects to return to his work next Mon-
day.
Mr. and Mrs. Robert F. Bickford re-
turned Monday from an extended wedding
trip. Their home on Main street was
decorated with signs, shoes and other
articles common on occasions of this na-
ture. Bickford was seated in the interior
of the home and many surprises were
discovered at nearly every turn. Knox Bick-
ford handled affairs at the store during
his brother's absence.
Bert Stearns builds shoes for infants
and practices law for grown people. He
is prospering; so much so he recently gave
his mother a nice diamond ring as a pre-
sent. She wanted it and he wanted to
please her. The neighbors say the letter
that came back from Indianapolis, re-
cognizing receipt of the ring plan-
tily shows on which side of the house Bert
got his business sagacity and literary
ability. His mother was a Russell and
came from Lovell.

Mr. and Mrs. Charles Howe and daughter
Roberta are spending several weeks
with relatives at Marazion.
Inez Flint of Lynn, Mass., has been
a guest of Mrs. Bertrand G. McIntire.
She had with her pet macaw, a bird
of the parrot family that attracted much
attention by its beautiful brilliant plum-
age. The bird accompanied Miss Flint
on all her visits, traveling on her shoulder
or arm. She is very intelligent and good
natured, but talks little.
The family of George W. Smith on
Water street were released from quaran-
tine Saturday.
George H. Bennett has completed the
addition on the north side of his paint
shop for general repairs on carriages
and sleighs. Mr. Bennett served an ap-
prenticeship in Bethel with Horace C.
Andrews who bought out Pinkney Burn-
ham's carriage manufacturing business.
Later Mr. Bennett was employed in Jar-
vis C. Billings' blacksmith shop on Me-
chanic street, Bethel. In the year 1876
he commenced business in Norway which
has run continuously since that year.
George Rand was in town the first of
the week to ship his household goods to
Alfred, where he is living. His oldest
sons are employed in a mill there and
the youngest boy attends school. They
left Norway after the fair for a hunting
trip and had some trouble with the stock
stored in the Cobbler's Hall building
near the shoe factories. The place had
been entered during their absence and
probably used for a gaming room as cards
and other material used during a sitting
of that kind were found when Mr. Rand
looked the place over. He could not find
any of his stock missing, although he
was informed several sled loads had been
carried away. The Rands plan to return
here later and resume business.
The repair shop at the E. N. Swett
Shoe Company is fully equipped with the
latest machinery and the former armory
has been changed into one of the best
shoe hospitals in the state. George Da-
ve, the well known expert, is in charge.
Business is going on as usual.
C. D. Waters of Montpelier, Vt., has
become Traffic Manager of the Barre
Quarries & Manufacturers Association
with headquarters at Barre. He takes
charge Jan. 19th and will soon move to
that city.

Funeral of Everett F. Bicknell

The funeral services for the late E. F.
Bicknell took place Sunday afternoon at
the Bicknell home on Orchard street. A
large number of relatives and friends
assembled to pay their last respects to
the deceased and a great profusion of
flowers gave mute testimony to the love
and esteem for the deceased as well as to
the sympathy for his bereaved family
which the people of Norway feel.
Rev. Chester Gore Miller, pastor of the
Universalist church, conducted the ser-
vices. The deceased had been a faithful
attendant of this church for many years
and served on its board of trustees for
several terms. Rev. Miller spoke in glow-
ing terms of the noble qualities of char-
acter which had endeared the deceased to
all who came in contact with him. He
spoke of him as a loyal friend, a true
husband, a true father and a faithful
citizen, a man of quiet disposition, but
one whose value was recognized never-
theless in all the various spheres of our
activities and whose influence made itself
felt in many directions.
At the conclusion of the religious ser-
vice Oxford Lodge, F. & A. M., took
charge, giving the impressive Masonic
funeral ceremony. Four members of Ox-
ford Lodge, James N. Favour, Stuart W.
Goodwin, Lee M. Smith and Charles L.
Hilton acted as pall bearers.

The late Mr. Bicknell was born April
4, 1854 in Buckfield, as the only son of
James P. and Rebecca F. Bicknell. In
his twelfth year he removed with his
family to California, where he remained
for six years. He returned to Maine to
attend Hebron Academy, later taking a
course at the Bryant & Stratton Busi-
ness college at Boston. After this he
returned to California, but after two
years he came again to Buckfield. At
this time he married Elizabeth A. Ben-
nett of Buckfield and went to live at
Paris Hill, where for a short while he
followed the trade of carpenter. Later
in 1880 the young couple moved to Nor-
way, where Mr. Bicknell engaged in the
grocery business with his brother-in-law,
the store Hamlin & Bicknell being a
handicap on Main street for many years.
After the dissolution of 1901, which
destroyed their store the partnership was
dissolved. Mr. Bicknell continued the
business alone until 1918, when he re-
tired.
Mr. Bicknell was a faithful member
of the Masonic fraternity holding the
Master's chair of Oxford Lodge for one
year.
During the last years of his life Mr.
Bicknell was greatly interested in the
genealogy of the Bicknell family, whose
American ancestors came to Massachu-
setts from England in 1632. The de-
ceased belonged to the 10th generation
in this country of this family which
counts among its members many men and
women of great distinction.
Mr. Bicknell is survived by his widow
and only daughter, Grace B. Eisenwinter,
the latter's home being in Waterville,
Conn.

Mr. Bicknell personified the highest
type of American citizen, always ready
to do his part in all movements in the
interest of his country. His was a life
of usefulness to his community, loyalty
to his country, faithfulness to his fam-
ily and friends. Because of this he filled
his place in this world well and because
he combined with it a seldom equalled
amiability of character his memory will
be cherished by his friends and neigh-
bors not less than by his immediate fam-
ily.
Relatives from out of town included
Mr. and Mrs. Edward E. Eisenwinter of
Waterville, Conn., Lena Bennett of Port-
land, Fred Bennett of Buckfield, Frank
Bennett of Paris, Mr. and Mrs. Atwood
of Lewiston, Mr. and Mrs. Morse, Mr.
Heald, Mr. Bicker and Mr. and Mrs. War-
ren of Buckfield.

Norway Grange met in regular session
Saturday afternoon. A very interesting
program was given. Grange will meet
Saturday, Jan. 24th for an all day meet-
ing with Bear Mt. Grange as guests.
Dinner will be in charge of the letters
beginning with M to end of alphabet.
The Young Men's Association will in-
stall officers in the afternoon with Henry
Jillson installing officer and Harold Pike
and wife assistants.
A fine program is being prepared for
that day.

Amended Government Insurance
The government insurance to soldiers
has been amended so the insured can get
a lump sum at death. The list of bene-
ficiaries is enlarged to include pretty near
all blood relatives. Those who have al-
lowed their insurance to lapse can be re-
instated with but very little bother.
Look it up. Write: Bureau War Risk
Insurance, Washington, D. C.

Ernest F. Martin is out again after
suffering a week or more from a cold
and intestinal trouble. He was working
with the crew of painters employed about
the I. O. O. F. block at South Paris when
stricken. He returns to that work this
week.
The usual dance after the basket ball
game Friday night was omitted. Marion
Millett, a senior in Norway High, passed
away Thursday morning and as a mark
of respect to the deceased and family,
the evening plans were changed. A bind-
ing contract for a large advance ticket
sale prevented cancelling the game.

The Ladies' Sewing Circle of the First
Universalist church will meet Friday af-
ternoon at the home of Della Noyes.
Several candidates are expected to ap-
pear for initiation at the regular meet-
ing of the Loyal Order of Moose, Friday
evening. Although the Norway Lodge does
not parade with brass bands and pro-
cession its kind was desired from the house
tops, the numbers are very much alive
and have a wide awake organization.
Their social features and generous hos-
pitalities have attracted many new mem-
bers during the past year.
The repair shop at the E. N. Swett
Shoe Company is fully equipped with the
latest machinery and the former armory
has been changed into one of the best
shoe hospitals in the state. George Da-
ve, the well known expert, is in charge.
Business is going on as usual.

become Traffic Manager of the Barre
Quarries & Manufacturers Association
with headquarters at Barre. He takes

BASKET BALL

Norway High 27; West Paris 20

In one of the best played and most ex-
citing contests for the season Norway
High won over West Paris at Norway
Opera House, Friday evening by a nar-
row margin. The game was free from
rough stunts and clever work by True,
with the sphere at long range, was the
big stuff which kept the contest from
going overtime. West Paris played
skillfully and had their lighter weight
players on the whole making during the
evening. Norway lacked the "beef,"
but a peculiar way of shaking the pepper
box at the psychological moment carried
the team into a narrow lead which they
held until the last whistle.
A large crowd of spectators were there
and a lusty cheering squad with heat-
quarters on the stage made the audi-
torium ring with the Norway cheer. Enthu-
siasm ran high as both teams were neck
and neck from the first jump. Even an
experienced observer would have been
from which to pick a winner. So over-
lively were the contestants working, a slight
break in judgment or a small flunk might
decide the whole show. Jimmy True for
Norway shone brilliantly during the last
half when he chanced several long shots
on the run and neatly pocketed the liv-
ely pill each time. Punting was a close
second with his fancy juggling for gains.
Chase played a star game for the vis-
itors and was assisted materially by each
team mate.
Thompson, Crocker and Stone played
their respective positions with uncommon
speed and kept their up-country oppo-
nents on a regular Jazz with the ball.
Their interference and passing were no-
ticeable features.

Norway Girls 12; West Paris Girls 2
A second game was staged Friday eve-
ning for a curtain raiser to the big show.
This was the first appearance of the Nor-
way outfit this season and they made
good. As the girls were well matched and
in a way handicapped the players, the game
doesn't slide along at break neck speed
in comparison to the regular method.
Great skill is needed to make a neat
showing and the Norway girls appeared
to have it over their opponents in this
line. The visitors played well and bel-
lantly at times but couldn't meet effec-
tively a more skillful organization.
Laurestine Foster at left forward
starred for Norway and Miss Peabody
made a strong showing for West Paris.
Mary Jones and Alice Bartlett did well
with Thelma Grover a successful right
guard. Madeline Hayden as right for-
ward and Elizabeth Hall at center played
their respective positions with ease.
The line-up was as follows:
Beatrice Davis, rf; Miss Peabody, lf; Dor-
othy Wardwell, center; Leona Marston, rg;
Hazel Cole, lg; Leah Dore, Myrtle Robinson,
substitutes.

Edward Little 42; Norway High 21
Norway High met defeat at Auburn
Tuesday evening at the hands of Edward
Little. The game was a close one, but
playing were featured in a contest which
brought out favorable comments from ex-
perts. Norway fell down on accurate
shooting and was not able to locate the
basket at seasons when a ringer might
have sent them near the high mark.
True caged one foul from the three called
against Edward Little and Grovo made
two from the four nailed on Norway.
The Auburn quintet is a rapid fire outfit
and accurate handlers of the sphere.
Several students and others attended
the game. They went on the motor line
automobiles and a number hiked to Mechan-
ic Falls, then continued by trolley. The
summary:

will meet Norway High School at Norway
Opera House, Friday evening, Jan. 16.
This will be one of the big games full
of action with every battery open along the
whole line. The visitors have the reputa-
tion of doing things in a masterly way,
but in the Norway game they will be
bunch anxious to go after baskets without
lost gloves. A fast game with many thril-
lers is assured. The Imperial Singing
Orchestra will furnish music for dancing
after the battle.

NORWAY MUNICIPAL COURT.

Wm. F. Jones, Judge
George L. Sanborn of Norway was
made respondent Wednesday on assault
charges brought by Leonard S. Sessions,
also of Norway. The alleged assault
took place Saturday at South Paris after
a strenuous cross-fire argument in which
plain English was featured. Mr. Sessions
is the driver of the bus between the two
towns. The respondent is bookkeeper at
the Ripley & Fletcher Co. garage and
works to his own truck day. The case is
the outcome of frequent meetings in the
highway in which it is said the driver
required too much road while passing
the respondent. Mr. Sanborn presented
the alleged crowding operations and gave
physical expression to his thoughts about
undue familiarity while meeting on a pub-
lic highway.
The respondent waived examination
and pleaded not guilty. After a brief
hearing a three dollar fine was imposed
and he appeared. Eugene F. Smith ap-
peared for Mr. Sanborn.

Norway Clerks' Ball Big Social Event
A big social event will be the 26th An-
nual Clerks' Ball at Norway Opera
House, Tuesday night, Feb. 3. Chan-

Cafe will enter at intermission and this
feature should not be overlooked.
The clerks are selling floor tickets.
Balcony seats are reserved and can be
secured at Stone's beginning January 27
at 7:30 o'clock.
This will be the crowning social event
during the winter and an attraction for
dancers from surrounding towns and cit-
ies.

Elsworth Shoe Factory Soon Starts
Larry Carroll: "We expect to start
up the Elsworth Shoe Factory the first
of next month. The machinery is being
put in and organization is nearly com-
pleted.
"It is largely a matter of sentiment
with me. Elsworth is the old home town
and they need an industry there and I'm
helping 'em to get one.
"I shan't spend much time there;
there isn't any need of it as the business
is going here. I don't think the line
of shoes is entirely different from those
made here. A good business will be done
there. No doubt of it."

Dorothy Thomas Showered

Edwin Thompson, Jr.

After a period of ill health dating
from the influenza epidemic in 1918, Ed-
win Thompson, Jr. of Haverhill, Mass.,
passed away in a hospital Jan. 5th. He
was stricken with a shock about 10 o'clock
in the forenoon and the end came two
hours later. His age was 56 years and
12 days.
Mr. Thompson was born at Portland
the son of Edwin and Rhoda Hubbard
Thompson and the eldest of six children.
The family moved to Norway when he
was a young man and with his father
found employment in Horne's Tannery
and later in the shoe factory.
He went to Haverhill some thirty years
ago and carried on an express business.
At frequent intervals he made shoes in
the several factories.
Mr. Thompson visited his brother,
George Thompson at South Paris before
his fatal illness and returned again while
convalescing from the first attack for a
short vacation.
He is survived by his widow, who was
Fannie B. Wright of Ashby, Mass., and
a brother, George Thompson. Three sis-
ters died many years ago. His parents
lived in Norway until their decease, the
mother died in 1901 and the father passed
on in 1907. He leaves no children.
An aunt, Mrs. Fannie B. Thompson of
Haverhill and two uncles in Maine in-
clude all the near relatives who survive him.

Services were held at his late home and
the remains brought to South Paris, Fri-
day and placed in the tomb at Pine Grove
cemetery. His brother and the widow
accompanied the body.
George E. Currier
George Evans Currier passed away
early Monday morning at his home on
Pine street. He had been ill several
weeks and had recovered from pneumo-
nia when stricken with a shock early
Sunday morning. He was rendered un-
conscious and failed to rally.
Mr. Currier was born in Molokus,
Aroostook County, Aug. 19, 1846. He
spent his early manhood in his home
town and during the Civil War enlisted
in Company K, 12th Regiment Maine
Volunteers and later re-enlisted in the
27th, and then again in the 5th Maine.
At the close of the war he settled in
Bethel and worked in the W. E. & J. P.
Skillings pool mill many years as fire-
man. He married Miss Kimball and had
four children. He died at his home where
he came to Norway 24 years ago. Mr.
Currier worked in the stockroom at the
B. F. Spinney shoe factory. After the
factory closed he found employment at
the Paris Manufacturing Company. Mrs.
Currier died 13 years ago and in 1910
he married Mrs. Agnes Snow.
He was a member of Brown Post, G.
A. R. of Bethel and of Oxford Lodge,

Rex Theatre May Enlarge
J. A. O'Brien of Lewiston representing
O'Brien & Russell, owners of the local
movie houses was in town Saturday. In
company with Manager William E. De-
Croteau a survey of the theatre and pro-
mises was made with the view of enlarg-
ing and improving the property.
Plans are being perfected to add a
frontage of twelve feet on Cottage street
and extend lengthways to the rear of the
lot. The balcony will be enlarged to ac-
commodate at least 200 more seats, giving
an opportunity to handle some 500 people
before hanging out the S. R. O. sign.
Several feature shows played recently with
a big turn away, show that the manage-
ment are making a move to accommodate
a growing patronage.
Another business venture which indi-
rectly affects the local theatre is the leas-
ing of Robinson Hall at Oxford for a
term of five years. Manager DeCroteau
will also look after the interests there
with an idea of producing the same fea-
tures and high quality screen success
that are being shown at the Savoy, Rex
and other local houses under the control
of the corporation. Hereafter the hall
will be known as Robinson Theatre. Af-
ter interior changes are made and elec-
tric lights placed about the entrance the
theatre will open with two shows a week.
During the summer pictures will be shown
every night. As the management is work-
ing in the interests of the community,
an arrangement has been made to allow
the use of the theatre for local events
when not conflicting with the regular
bookings.

J. Birney Field is ill and confined to his
bed.
The ladies of the Red Cross of Nor-
way have knit many wristers, more than
20 pairs of mittens and 8 pairs of long
stockings which have been donated most-
ly through the schools to all the needy
children who were able to discover through
the village. Teachers outside the vil-
lage knowing of cases of this sort should
write to Norway Red Cross headquarters.
E. N. Swett was chosen superintendent
of the Sunday school at the Congrega-
tional church, Sunday.
Extensive repairs and rearrangements
of the room for Z. L. Merchant in the
flat over his store is going on with Chas.
Frost and Quinn Pratt on the job. Steel
ceilings are being put up in the former
law office of E. P. Smith and these rooms
will become an important part of the
new home. When completed the flat
will include ten rooms and a bath.

SOUTH PARIS HIGHWAY ROAD NEEDED

The improvement of a town road to
properly develop the resources of the
town has become so urgent that it is nec-
essary for the authorities and the citi-
zens to devise ways and means for bring-
ing such a development about. The bad
road tax is greater than the good road
tax.
If the hard surfaced road 18 feet wide,
costing \$3 per square yard or \$1,680 per
mile—that is the highest estimate, or
perhaps \$2.50 or \$2.75 will do it—the
material at hand that makes the cost per
square yard.
When the best authority in New Eng-
land like Hon. H. Elling Bred of New
York City, for 20 years first deputy high-
way commissioner of the state of New
York and now one of the leading coun-
sulting highway engineers of the coun-
try will talk a high type of road con-
struction and their lower cost of mainte-
nance for heavy traffic as compared with
gravel and similar surfaces, also Col.
Wm. D. Sohler of Boston, formerly chair-
man of the Massachusetts Highway Com-
mission, one of the best known highway
experts in the United States, and Hon.
C. M. Robinson of New Haven, Conn.,
chairman of the legal committee of Con-
necticut Good Roads Association all
agree on the same type as the lowest
cost in the end, it's safe to say they know
their business.
Now we think the whole town of Paris
says we want a permanent road from
Park street bridge to the Norway town
line. The South Paris Board of Trade
are for a bond issue sufficient not to see
the road in the condition it was at the
last county fair. We cannot afford to
advertise Paris that way.

Highway Traffic Conditions Are So
Different
Cost of construction has become sec-
ondary. We must connect centers of
population because they are the point
from which things and persons come
and to which they wish to go. Early
movement of road construction is vital.
Ten years ago we had a good state road
past the Norway Pine Grove cemetery
which cost us \$6,000 per mile to build
and what have you got with your annual
maintenance that you have expended to-
day. We can't have a patrol and re-
ceive aid from the state on this road
from Norway. The road is a good one
bridge as it is within a corporation lim-
it. I think we all were ashamed that
we were residents of the town of Paris,
when the conditions were such as they
were from Market Square to the Nor-
way line, this

TWICE-TOLD TESTIMONY

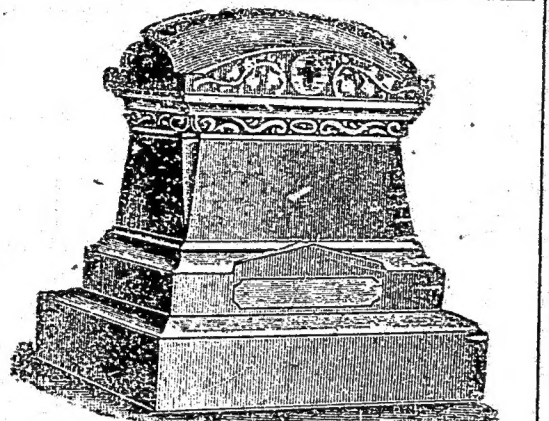

Norway People Are Doing All They Can For Fellow Sufferers

Norway testimony has been published to prove the merit of Doan's Kidney Pills to others in Norway who suffer from bad backs and kidney ills. Lest any sufferer doubt this evidence of merit, we produce confirmed proof—statements from Norway people who again endorse Doan's Kidney Pills—confirm their former testimony. Here's a Norway case:

S. C. Foster, barber, says: "I have used Doan's Kidney Pills and I am only too glad to say to others I think they are the best of kidney medicines. Several years ago I had kidney trouble. I got Doan's Kidney Pills at P. P. Stone's Drug Store and I was soon feeling all right again. I remained so for a long time, but later caught cold and my kidneys gave me trouble. I again took Doan's and they gave me relief."

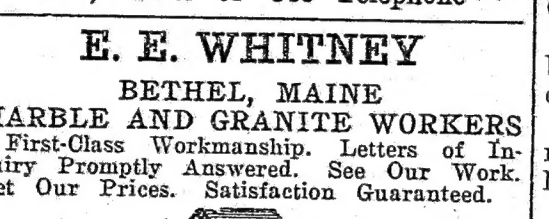

EIGHT YEARS LATER, Mr. Foster added: "I still think as well of Doan's Kidney Pills today as when I first endorsed them. I used them occasionally, as I feel in need of them and I am always promptly benefited."

Price 60¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Foster had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

The most wonderful woman in this vicinity is Mrs. Cynthia Bonney, who was ninety years old the 4th. Two of her friends, who are nearly thirty years her junior, were calling on her and she showed them an original poem which Sharon Robinson had sent her on her recent birthday. Both ladies shamefacedly confessed that they could not read it as they had left their glasses at home, whereupon Mrs. Bonney took it home and without glasses read it in a clear well modulated voice. She lives with her daughter, Mrs. Epyrus Bosworth, who strives to make her mother's life pleasant. Her two cozy rooms are the pleasantest in the house and her days are passed in peace and all possible comfort.

Mrs. O. M. Jones was taken to the Sisters' Hospital, Lewiston, last week for treatment. Her little daughter, Elizabeth, is stopping with Mr. and Mrs. E. V. Braden, where she is made as comfortable and happy as possible.

Shoe Prices

I want to take a little time and some space in this paper, that I may discuss with the readers of this article or advertisement, the shoe situation as it now stands. We will admit that prices are high, much higher than they ought to be, but we do not admit that they are out of proportion to the other necessities of life. I have recently paid \$6.00 for a barrel of apples and I am perfectly satisfied with the price and surely believe that they could not be sold for less at a profit. I pay 65 cents per pound for butter, 12 cents a bottle for milk and so on down the list, and the producers are not getting any more than they ought to have for their work.

We have at the present time a store full of footwear of all kinds which we bought and are selling below the market price to-day. Our retail price on more than half our stock is less than we can buy at wholesale. It has always been the purpose and policy of this store to give our customers full value for their money, and this policy has surely been the means of bringing to us a good business which has increased year after year. Our customers have been loyal to us and we surely appreciate it. Now as the holidays are approaching we will suggest that you buy useful gifts and we are sure that footwear of all kinds is always useful and acceptable. We are also positive that we can suit you in style, quality and price.

We are fitting up and expect to have in operation in a few weeks, a modern boot and shoe repair department. We shall have all new and up to date machinery and intend to have as good a repair shop as can be found anywhere.

George Davee will be in charge and that fact is a guarantee that the work will be done right. We shall use the best of stock and our prices will be as low as good work can be done. We shall make a great effort to get the work out promptly. You will be informed when this department is ready for business. Save your repairing for us.

A number of the workmen in the last year met and marched to the residence of Charles Lawrence and presented him an easy chair. To say Mr. Lawrence was surprised is putting it mild, however all were comfortably provided for, he sent an order to the restaurant for oysters fried and in the stew, cake, coffee, chocolate and cigars. After the lunch was served, greetings of the season were extended, all feeling that the evening had been very pleasantly passed.

Mel W. Sampson has sold his black trotting mare to George W. Bishop of New York for \$300.

The Norway Electric Light Co. at the falls are using a new brick station and a stone dam is being built. Among the private residences are two large dwellings erected by Dr. P. N. State Report of Education On Union High School

The following opinion on the proposed Union High School for Norway and So. Paris has been received from the State Dept. of Maine School Dept. by Supt. T. C. Morrill.

"It is clear to all who are making a study of high school education that a very marked change is taking place. This change is particularly noticeable in its trend toward vocational education, emphasis upon training for good citizen-ship and broadening which the high school should give."

It is clearly recognized that the high school has very great influence upon the student body in preparing them to meet the demands of industrial, civic and social life. It is clear that if this training is to be given in the most effective manner a very different type of school must afford opportunities for the beginning of training along lines leading to the important industries and the strong-est possible development along civic and social lines. It appears from experiments that have been going on for several years—sufficiently long, in fact, to demonstrate the efficiency of the plan—that the most successful work can be done in a school comprising what is now the last three years of the high school course made up of students who for the most part have fairly clear notions as to what they are likely to do after leaving school. Such a school is able to give intensive work along several important lines. It is this type of school which I understand the towns of South Paris and Norway have under consideration.

This type of school would insure at the start a thoroughly capable administrator at the head, teachers especially chosen with reference to their ability to handle certain subjects, and special courses along certain vocational lines serving the major industries of the community. These, as I think of them, would include the trades and industries, agriculture, the latter, for example, would not be devoted considerably beyond what can now be done under a single teacher. Facilities for physical training and social training could be provided. Of course this would be possible without the duplication which would be necessary if each town attempted to provide such opportunities for its high school pupils.

An equally important phase of high school organization is the junior high school. This school embraces the last two grades of the elementary group and the first year of the present high school. As now developed, it gives a far more effective kind of training for pupils of these years than does the present system. The success of this plan has been demonstrated beyond doubt. The proposed plan for Norway and Paris would make it possible to build up strong junior high schools in each village. The facilities for doing this are already at hand; the only changes that would come about are in the rearrangement of grades and the special preparation of teachers. This system would react very favorably upon the grades below and in my judgment the whole school organization would be greatly benefited by this plan.

"I have no hesitation in saying that the plan for the union high school is in my mind the most effective means that could be adopted for developing a high school of unusual strength for these towns. Norway and Paris would easily lead the state so far as smaller towns are concerned in their educational program. I believe there should arise no complication which cannot be easily met. The results of cooperation between these two towns which have so many interests in common will unquestionably lead to greater industrial development and will make for the future prosperity of both communities. I am confident, too, that the civic and social interests will be served in such a manner as to be most valuable and wholesome. I am especially anxious that this project be carried through because the several instances of towns similarly located. I believe that through this means alone will we be able to provide the type of high school education which the proper training of our young people demands."

In a future issue of the Advertiser will appear some opinions and estimates on the building as presented by architects and people in position to know concerning such a building.

KANE DECLARES HE IS POWERLESS TO CHECK GOUGERS

Handicapped by Cooke's Refusal to Reorganize Wartime Fair-Price Board, He Says

ATTORNEY'S DUTY TO STOP PROFITEERING, SAYS HEINZ

Prosecutor Has No Time to Answer Questions Concerning Action in Other Cities

With the housewives of this city clamoring for direct, vigorous action against the food gougers, whom they hold responsible for the undernourishment of their children, Francis M. Kane, United States district attorney, declared yesterday he was powerless to check profiteering.

Mr. Kane complained he was being handicapped by the refusal of Jay Cooke, formerly food administrator in Philadelphia, to reorganize the fair-price board. That is, he said, of publicity, ought to be of profiteers, he said.

But Howard Heinz, attorney for Pennsylvania, said Mr. Kane on that point.

Mr. Kane said that he had a view with the PUBLIC LEBANON, although he was making every effort to have fair-price boards re-established, that would not relieve the federal authorities from their duty to stop profiteering.

The district attorney said that the Lever food control act proved to be effective in cases of profiteering as distinct from profiteering. He stated that it would be extremely difficult to prove violations.

Mr. Kane acknowledges that prices are inordinately high. Ignoring the price of meat, regarding which Robert M. Simmons, agent of the State Food and Dairy Department and government food and drug inspector, has given him a mass of evidence, he said that "the prices of green vegetables are terrible."

Great Quantities of Food Seized by Federal Agents in Big Cities

Poor Fuel is Partly to Blame

When your motor heats up, do you blame the lubricating system, tight piston rings, the spark too much retarded, poor water circulation in the cooling system? Poor fuel often has a lot to do with it. Low-grade gasoline burns slowly and incompletely, producing high heat—deposits carbon on the piston heads and in the combustion chamber which retains the heat and prevents quick radiation. The remedy? High quality, quick-burning gasoline that is uniform in its vaporizing and ignition characteristics, that burns up completely and delivers maximum power in all weathers—SOCONY Motor Gasoline. Standardize on SOCONY and you will avoid lots of engine trouble and secure big mileage per gallon of gasoline.

At filling time look for the red, white and blue SOCONY Sign.

meeting at the M. E. church was also
along these lines of thought. Rev. H. A.

gether.

At the Finn church Lauri Immonen
acted as interpreter both ways, from the
English speech to the Finnish and vice
versa; also several hymns were sung in

also three new members were taken into

The grange met Saturday in an all
day meeting. They voted to have the
last meeting in the month of February,
March and April to be all day meetings.
Dr. Hitchcock, a better health advocate,
will speak at the next all day meeting in
January. Next week the officers-elect
and any other grange members have been
invited to go to Bryant's Pond to join
with them in a double installation to be
performed by a state officer. The din-
ner invitation is the same as at Pomona;
each one carry a piece of pastry.

Mrs. Madeline P. Berry in behalf of
the grange presented to W. Master Dana
A. Grover and his worthy wife an oak
rocking chair, mission style, in ap-
preciation for their deep interest and val-
uable aid to the grange for the past two
years. It was a surprise to them. Mr.
Grover stammeringly responded with
many thanks. Mrs. Grover also graciously
responded.

Next Sunday evening under the aus-
pices of the W. C. T. U. a union prohibi-

from the schools. Other interesting
things will be on the program, also a
white ribbon chorus.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham, Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Feel blue

Some mental disorders, periods of depression, etc., are definite reactions from imperfect or sluggish action of the digestive organs. In these cases, 1 or 2 doses of "L.F." Atwood's Medicine will dispel the gloom and restore an active, hopeful mental condition, by removing the cause. Headache powders and unreliable tonics may give temporary relief, but the safe, natural processes that this well-known remedy set in action can have no harmful effect.

It is well to keep a generous supply on hand, and to take small doses regularly. This will improve your general condition, enable you to work better, and give a fuller enjoyment of life. There is no cheaper health insurance. Buy a large bottle today. 60 teaspoonful doses for 50 cents.
